

HOW TO ADD AN ADMINISTRATOR IN YOUR GUIDESTONE EMPLOYER ACCESS PROGRAM

Using your GuideStone Employer Access® Program (EAP) is a fast and efficient way to streamline your everyday administrative tasks. These tutorials are designed to provide step-by-step instructions for some of the most-used functions in EAP.

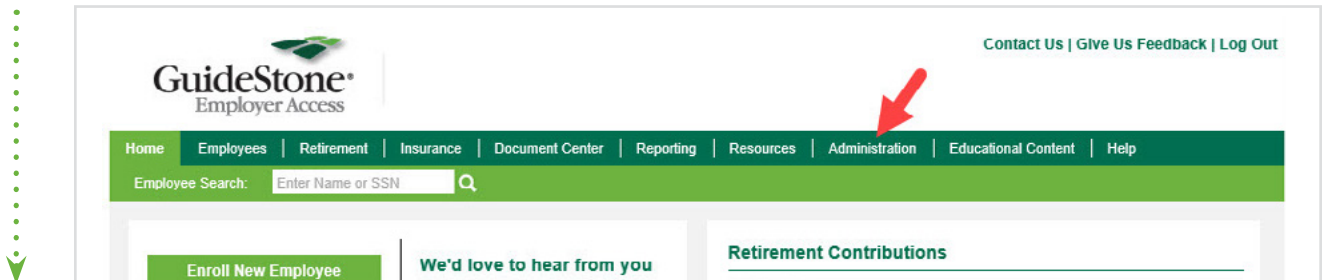

This tutorial outlines how to add an administrator to your organization's EAP account. Even if there is only one individual managing the day-to-day tasks, it is a good practice to have a backup administrator.

STEP 1: Go to EAP.GuideStone.org and log into your EAP account.

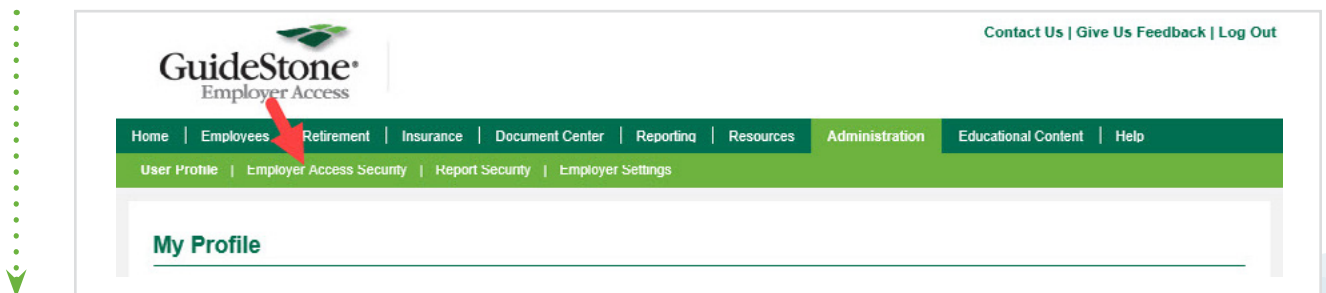

The screenshot shows the 'Log in' page of the GuideStone Employer Access system. It features a green header with the text 'Log in'. Below the header are two input fields: 'User Name:' and 'Password:'. Each field has a corresponding link: 'I forgot my User Name' and 'I forgot my Password'. A green 'Log In' button is positioned below the password field. At the bottom of the form, there is a light blue box containing the text: 'BY CLICKING LOG IN ABOVE, YOU ACCEPT GUIDESTONE'S USE OF COOKIES AND AGREE TO THE TERMS OF GUIDESTONE'S PRIVACY POLICY.' Below this box is a link that says 'Register employer with Employer Access'. A green dotted arrow on the left side of the page points downwards towards the screenshot.

STEP 2: Select "Administration" from the main toolbar.

STEP 3: Select "Employer Access Security" from the light green toolbar.

STEP 4: Select “Add A New Administrator”.

[Remove Access](#)

STEP 5: Complete the requested information and select “Save Invitation”. When you save, a one-time six-digit access code will pop up on the screen. Share this code with the new administrator, who will need it to log into his or her account the first time. The new administrator will receive an email invitation to log into EAP. The individual who created the administrator request will be copied on the email. Please note: The one-time access code will expire in four days.

New Administrator

Administrator's Name:

Email Address:

Confirm Email Address:

Employer Administrator

Full Rights Access? No Yes

Please Note: By granting full authorization, this user will have complete access to all features within the Employer Access system. This role also allows the user to grant or remove other users' access to various roles within the Employer Access system.

Insurance

Insurance Administrator
The user will be authorized for all of the roles listed below. This role allows you to give authorization to users for the roles listed under this module, as well as remove any users from this module who are not administrators.

Update
This role allows the user to view, add or update employee information, view insurance pending transactions, add, update or view insurance billing, pay the bill and add, update or terminate products, employees or dependents.

View
This role allows the user to view employee information related to insurance.

GuideStone Central Access

GuideStone Central Access
The user will be authorized to access the GuideStone Central education portal.

CONGRATULATIONS!

You've successfully added a new administrator to your EAP account!
